Lab Assignment – 3

My work for the lab assignment consists of Sign Up page. Application is developed with four activities.

1.MainActivity:

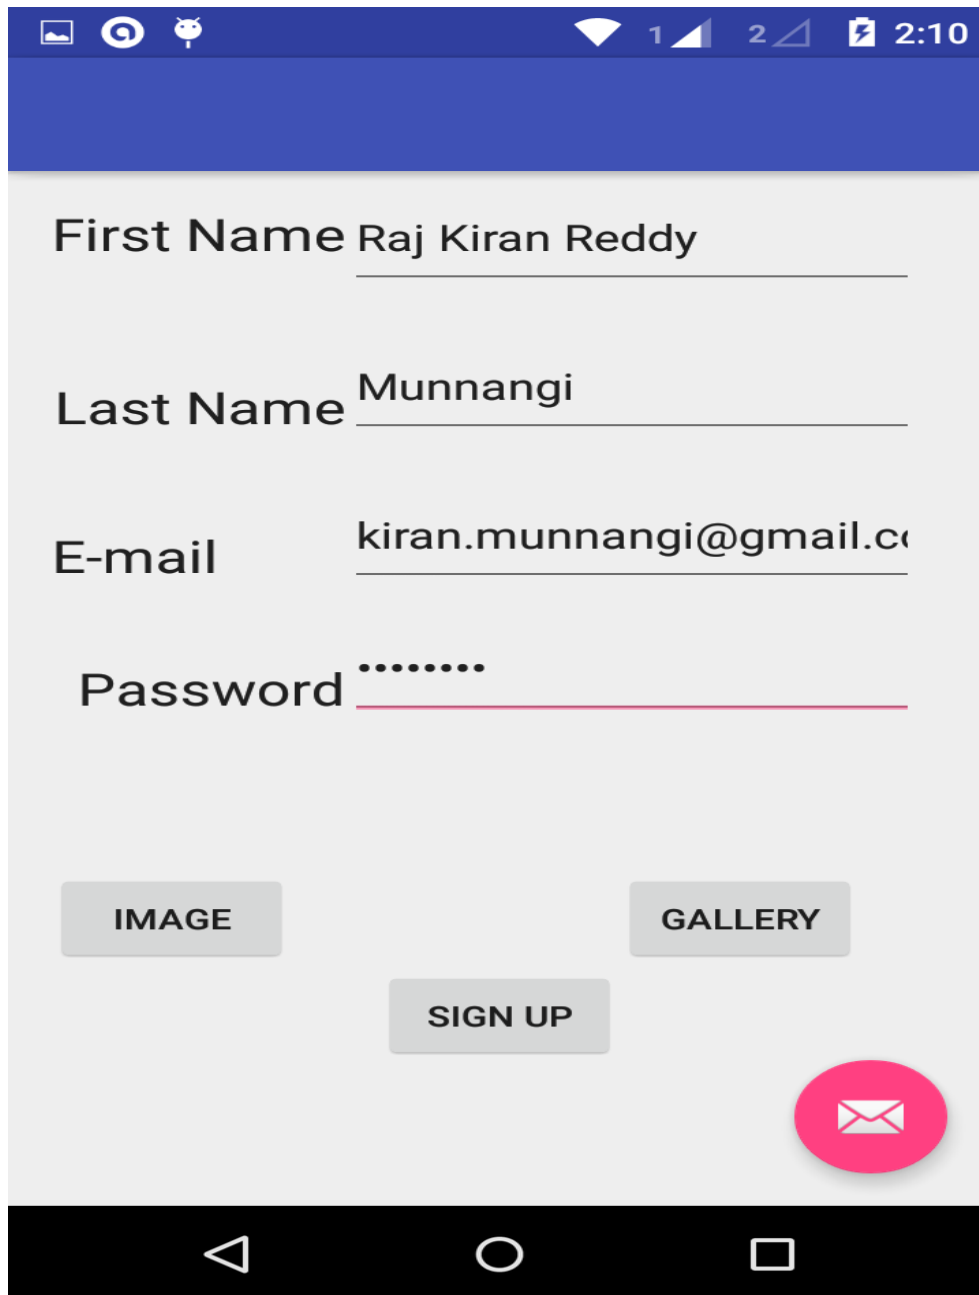

MainActivity holds the main functionality of the application. It holds the text fields and buttons and their functionality.

The screenshot displays the Sign Up page of an Android application. At the top, there is a blue header bar. Below it, the page has a light gray background. The form consists of four text input fields, each with a label to its left: 'First Name', 'Last Name', 'E-mail', and 'Password'. Each label is followed by a horizontal line representing the input field. Below the input fields, there are three buttons: 'IMAGE' and 'GALLERY' are positioned side-by-side, and 'SIGN UP' is centered below them. In the bottom right corner, there is a pink circular button with a white envelope icon. The top of the screen shows the Android status bar with various icons and the time '2:09'. The bottom of the screen shows the Android navigation bar with the back, home, and recent apps buttons.

As shown in the above screenshot Sign up page consists of details like First Name, Last Name, E-mail and password fields. It consists of image, gallery and sign up buttons.

User can enter the details in the respective fields and creates account.

The screenshot shows a mobile application interface for user registration. At the top, there is a blue header bar. Below it, the form fields are as follows:

- First Name:** The text "Raj Kiran Reddy" is entered in a light blue input field.
- Last Name:** The text "Munnangi" is entered in a light blue input field.
- E-mail:** The text "kiran.munnangi@gmail.co" is entered in a light blue input field.
- Password:** The text is masked with seven dots "....." in a light blue input field.

Below the input fields, there are three buttons:

- IMAGE:** A light blue button with the text "IMAGE".
- GALLERY:** A light blue button with the text "GALLERY".
- SIGN UP:** A light blue button with the text "SIGN UP".

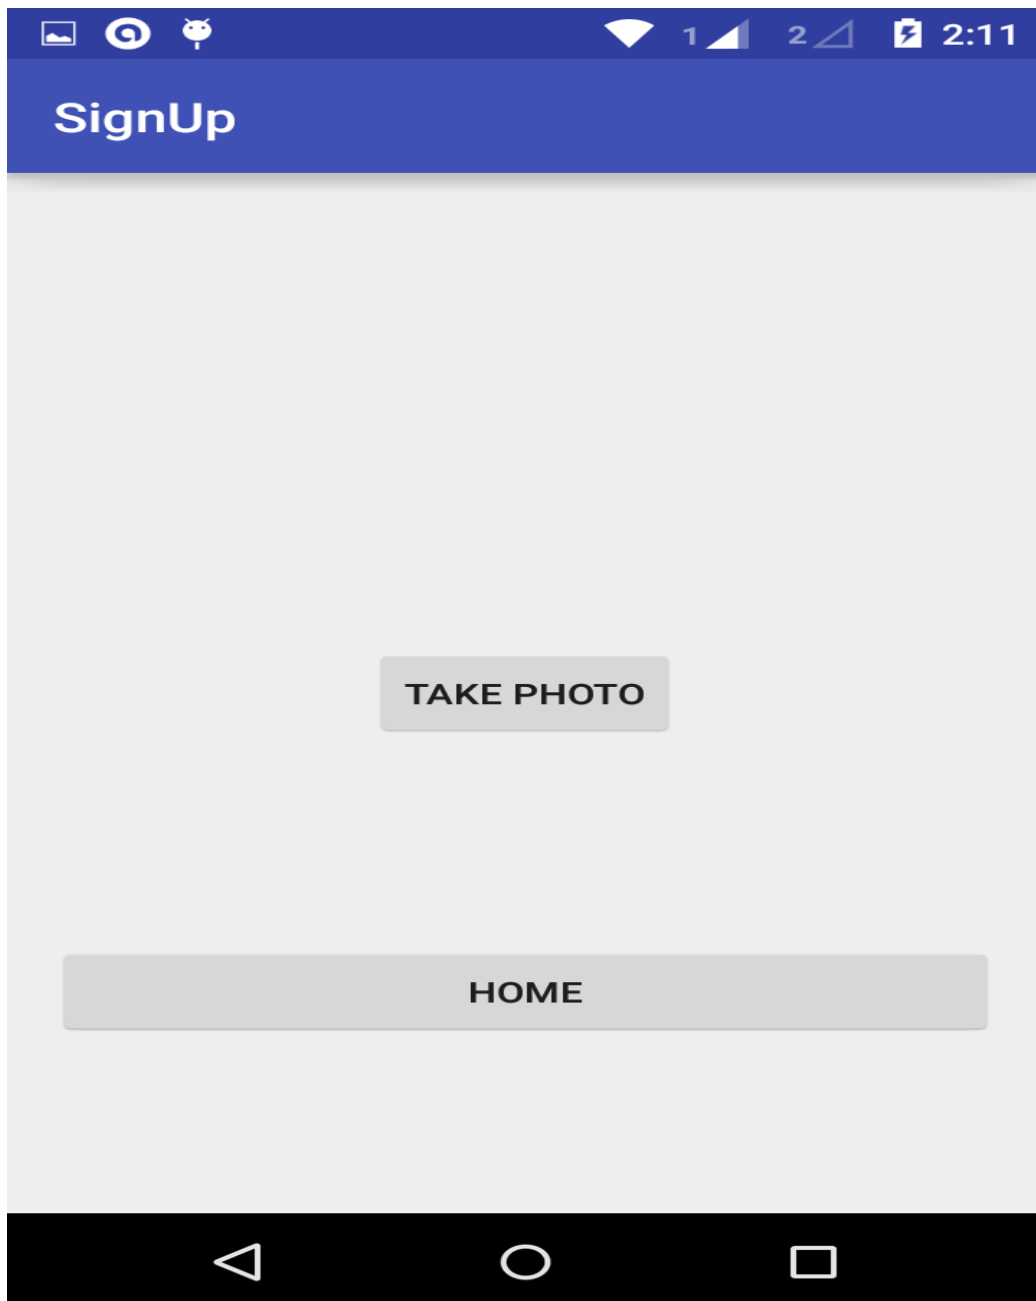

In the bottom right corner, there is a red circular button with a white envelope icon, representing an email or contact function.

The bottom of the screen shows the standard Android navigation bar with back, home, and recent apps icons.

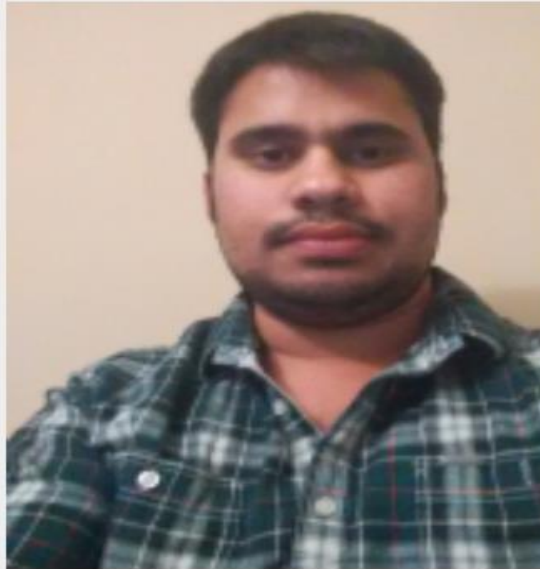

2.PhotoActivity:

PhotoActivity captures the user pictures using camera and stores them in the gallery.

After entering the details user can add his picture to his profile. Picture can be added taking from camera or can be uploaded from the gallery.

SignUp

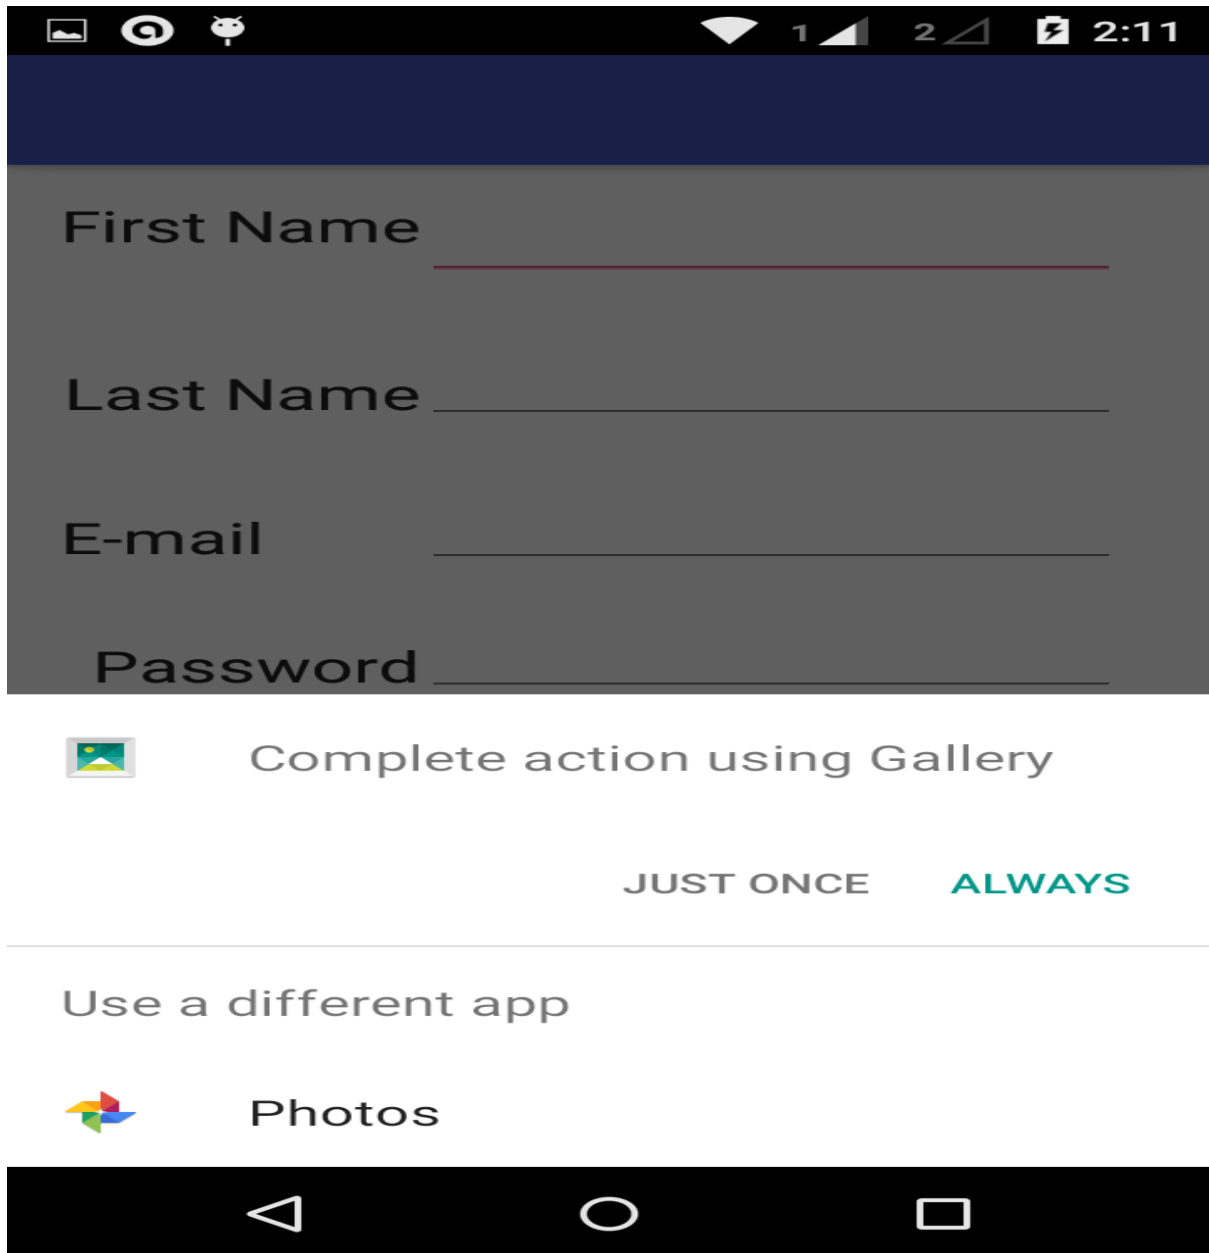

TAKE PHOTO

HOME

3.ImagePicker:

ImagePicker activity selects the image from the gallery.

4. MapsActivity:

Up on clicking the Sign Up option control will be moved to google maps page with user image as marker at his present location
